Sage Derby

At Belton Farm we are passionate about making great tasting classic and contemporary British cheese.

Award-winning, handcrafted cheese with real character and subtle complexity. Cheese made to entice the taste buds, marrying unique depths of flavour with tantalising textures.

An independent, family-run business, located in the stunning Shropshire countryside, cheese has been made at Belton Farm by the Beckett family since 1922. We only use the very best locally sourced ingredients. Our milk comes from Belton Farm's dedicated group of local dairy farmers who pride themselves on the quality of their grass-fed milk, and the health and welfare of their cows. We source our salt from historic local Cheshire salt mines. While our bespoke cultures, that start the cheese making process, are unique to Belton Farm and a highly guarded secret.

Harnessing the very best of cheesemaking tradition we combine it with the skill, dedication and drive of the latest generation of Belton Farm master cheesemakers. Belton Farm produces a range of award-winning cheese which includes classic regional crumbles such as Cheshire, Lancashire, Caerphilly and Wensleydale along with great tasting Red Leicester, Double Gloucester and a delicious range of organic cheese which includes cheddar.

A twist on tradition brings to life our contemporary modern British cheese range and the fabulous Red and White Fox brands. Based upon aged Red and White Leicester recipes, the 'Foxes' are famous for their distinctive taste and texture. Red Fox combines a cunningly unexpected crunch with an intense and complex blend of sweet and savoury flavours, while White Fox is rich and intensely creamy with a nutty finish.

Our cheese range is available in traditional rounds, wheels and cut block formats matured to perfection on site and carefully selected to customer specifications by Belton Farm's experienced graders.
